REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses or suggests a system and method for generating selectable signals for tuning in a broadband tuner for use in a broadband receiver comprising: a divider-shifter that divides and shifts a local oscillator signal to obtain in-phase and quadrature components of a selected channel frequency, wherein the divider-shifter divides the local oscillator signal by a first-number when the selected channel frequency is within a first-band, and wherein the divider-shifter divides the local oscillator signal by a second-number when the selected channel frequency is within a second-band; a selected frequency identifier that determines whether the selected channel frequency falls within the first-band or the second-band, cause the divider-shifter to divide by an appropriate number, and programs the value N such that the current frequency of the local oscillator signal is equal to the first-number times the selected channel frequency when the selected channel frequency falls within the first-band and the current frequency of the local oscillator signal is equal to the second-number times the selected channel frequency when the selected channel frequency falls within the second-band.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kasturia (U.S. Pat. 5,572,168) discloses frequency synthesizer having dual phase locked loops.

Mittel et al (U.S. Pat. 5,789,987) disclose a low noise frequency synthesizer.

Kaufmann et al (U.S. 2003/050029 A1) disclose a fast locking wide band frequency synthesizer.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to KHAI TRAN whose telephone number is (571) 272-3019. The examiner can normally be reached on 7:00AM - 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JAY PATEL can be reached on (571) 272-2988. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
